## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802000	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Office of the Director	<b>DIVISION:</b> Director's Office

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### DHSS Director's Office

Program is found in the following core budget(s):

	Director's Office								TOTAL	
GR	650,195								650,195	
FEDERAL	1,941,698								1,941,698	
OTHER	0								0	
<b>TOTAL</b>	<b>2,591,893</b>								<b>2,591,893</b>	

#### 1. What does this program do?

The Director's Office includes the department director, deputy department director, and other senior management staff that provide administrative leadership, support, coordination, and oversight for the entire Department of Health and Senior Services (DHSS). In addition, our department has centralized personnel, government policy, legislation, legal affairs, and public information in the Director's Office. The Director's Office also oversees the Employee Disqualification List (EDL) Program which manages all aspects of the statutorily mandated EDL process including complaint investigations indicating possible abuse, neglect, misappropriation of funds or property, or falsification of service delivery documents by employees of all entities licensed under Chapter 197 (hospitals, hospice, home health agencies, ambulatory surgical units), long-term care facilities, in-home service providers, consumers, or vendors (Sections 208.912 and 208.915, RSMo). As a result of this centralized approach, DHSS is able to eliminate the need for the divisions/centers to duplicate these services and processes.

The Office of the Director, which includes the Boards of Health and Senior Services, serves as the focal point for leadership and coordination across the department. The director articulates and reinforces the department's vision and goals to the programs within the department and provides advice and counsel on public health and senior services issues to the governor and the legislature. The DHSS director facilitates the department's partnership with local public health agencies, Area Agencies on Aging, and other organizations addressing public health and senior issues.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 191.400, RSMo (State Board of Health); Chapter 192, RSMo (department); Section 660.062, RSMo (State Board of Senior Services); and Sections 197.500, 198.070, 198.090, 660.315, 660.300, 660.305, 208.912, and 208.915, RSMo (Employee Disqualification List).

#### 3. Are there federal matching requirements? If yes, please explain.

No.

### 2. CORE DESCRIPTION

The Center for Health Equity is comprised of the Office of Primary Care and Rural Health, Office of Minority Health, and Office on Women's Health. These offices work collaboratively with other stakeholders to address health inequities in Missouri. The Office of Primary Care and Rural Health works to ensure access to and availability of primary health care services for all of Missouri's populations, including its rural citizens. As part of the Primary Care Resource Initiative for Missouri (PRIMO), the office evaluates availability and accessibility of primary medical, mental, and dental health professionals; develops resources to enhance and expand community-based health care delivery systems; and works with federal, state, and local partners in the recruitment and retention of health care professionals in health professional shortage areas. The office also administers Missouri's oral health program, which provides a broad range of core public health activities for oral health. The Office of Minority Health works to develop public health interventions and provide technical assistance to decrease the rate of health disparities in minority communities; provides technical support for the design of culturally appropriate health messages and educational outreach; convenes minority-specific focus groups; develops and conducts surveys; and assists state and local partners with program implementation for "hard-to-reach" (underserved/vulnerable populations that are geographically, culturally, and economically isolated) minority populations. The Office on Women's Health offers expertise on areas that affect women's health and works with other programs, state agencies, and local partners to promote and improve the physical and mental health and well-being of Missouri's women and girls.

### 1. What does this program do?

This program works to ensure the availability and accessibility of primary health care services for all Missourians, including its rural citizens. Part of this effort is to reduce the shortage of medical, dental, mental, and nursing health professionals throughout Missouri. The office also administers Missouri's oral health program, which provides a broad range of core public health activities for oral health.

The Primary Care Office (PCO) promotes federal, state, local, and private collaboration in expanding comprehensive, community-based primary health care services for medically underserved populations. The PCO monitors and evaluates access to health care services, including designation of health professional shortage areas. They also represent the National Health Service Corps in this state, J-1 Visa/State 30 Waiver Program, National Interest Waiver Program, and work collaboratively with state and national partners on the development and expansion of safety-net health care delivery sites.

The Oral Health Program provides a broad range of core public health activities for oral health. Activities include access to oral health care, oral health surveillance, oral health education, technical assistance on fluoride mouth rinse program and community water fluoridation, portable dental equipment for community outreach, promotion of dental sealants, and other preventive measures including fluoride varnish and oral health research. Through these programs and activities, prevention and clinical services are provided to improve the oral health of Missourians. The Preventive Services Program (PSP) is a free community-based program currently available to any child (infant to age 18) in the state of Missouri. Children who participate in the PSP receive an annual oral screening conducted by a local dentist or dental hygienist, an application of fluoride varnish twice per calendar year, oral health education materials (including a free toothbrush and toothpaste), and an oral health note indicating the need for dental treatment.

The State Office of Rural Health (SORH) supports and implements programs directed to improve all aspects of health in rural communities. SORH serves as the clearinghouse for collecting and disseminating information on rural health issues, coordinates activities related to rural health care, and participates in strengthening state, federal, and local partnerships in the delivery of health care in rural areas. Services provided by SORH for rural hospitals include the Medicare Rural Hospital Flexibility, which provides resources to certified critical access hospitals to improve the quality of services provided; the management of the facilities and the expansion of emergency medical services; and the Small Rural Hospital Improvement Program, which provides funds directly to qualifying hospitals that focus on quality improvement, performance improvement, and patient safety.

The Primary Care Resource Initiative for Missouri (PRIMO), the Missouri Professional and Practical Nursing Student Loan (NSL), and Health Professional Loan Repayment Program (LRP) address the lack of access to essential healthcare services, especially those in underserved areas. PRIMO provides resources to community organizations to develop healthcare services in areas where services are not available or to expand existing healthcare services; providing loans which promote early recruitment (high school) of health professional students, especially recruitment of individuals from rural, inner city, and underserved communities in Missouri; and providing education loans to healthcare professional students in exchange for an obligation to provide primary, behavioral or dental health care services in underserved areas upon completion of training.

#### Office of Primary Care and Rural Health Program

##### 1. What does this program do? (continued)

The NSL program provides forgivable student loans to nursing students, upon completion of training, in exchange for service in communities and facilities that are either experiencing nursing shortages or are in underserved areas of Missouri. The LRP provides incentives for licensed healthcare professionals who are currently employed in an underserved area. This is accomplished by providing loans to the professionals to offset educational debt associated with obtaining a primary, behavioral, or dental care degree. In exchange, the health professional commits to continued employment at the qualifying location, for a minimum of two years.

##### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 191.411, RSMo (PRIMO); Section 191.500, RSMo (Student Loans); Section 191.600, RSMo (Loan Repayment Program ); Section 192.050, RSMo (Oral Health Program); Section 192.604, RSMo (Office of Rural Health); Section 335.212, RSMo (Nurse Loan Program); Section 335.245, RSMo (Nurse Loan Repayment Program); and Section 333(D), PHS Act (Primary Care Office).

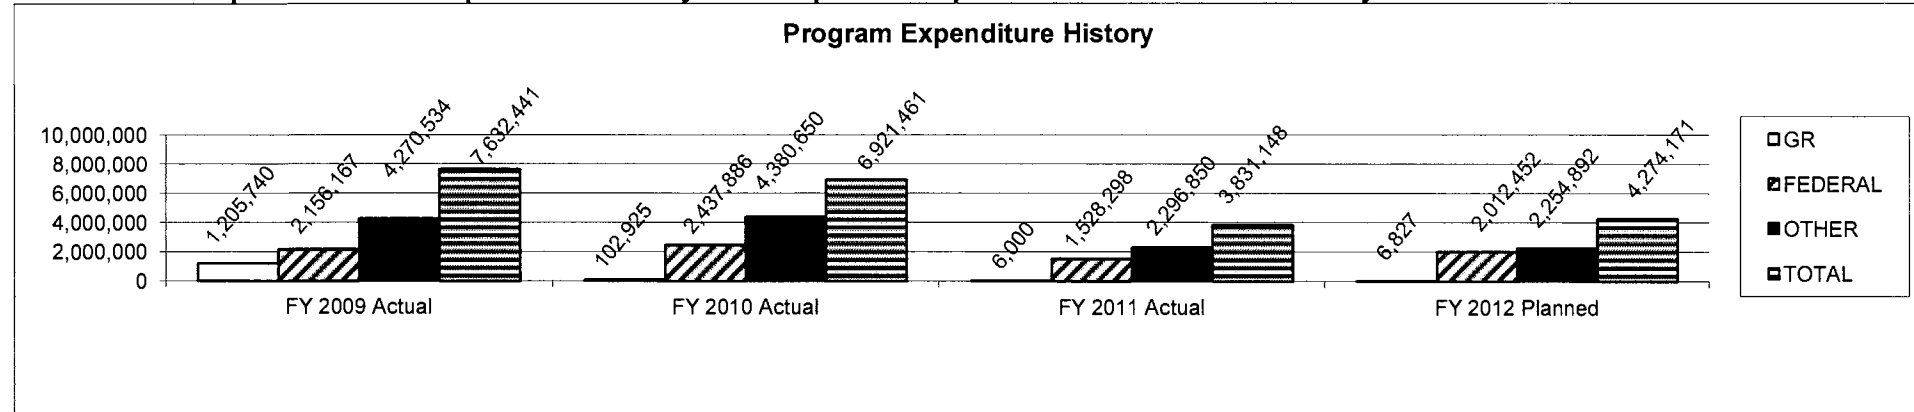

##### 3. Are there federal matching requirements? If yes, please explain.

Yes, the Maternal and Child Health Services Block grant requires \$3 of state funds for every \$4 federal. The State Loan Repayment Program Grant requires a \$1 state for each \$1 of federal funds, which is provided through PRIMO funding. The State Office of Rural Health requires a \$3 state to \$1 federal match, which is provided through PRIMO contracts in rural Missouri communities.

##### 4. Is this a federally mandated program? If yes, please explain.

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802100	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Administration	<b>DIVISION:</b> Division of Administration

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2012, the DHSS Division of Administration was granted 25 percent flexibility between General Revenue personal services and expense and equipment appropriations and 100 percent between federal and other funds expense and equipment. The Division of Administration requests that this level of flexibility be continued for FY 2013. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances.

#### DEPARTMENT REQUEST

DHSS requests 25 percent flexibility between PS and E&E for General Revenue funds and 100 percent flexibility in E&E between federal and other funds.

**2. Estimate how much flexibility will be used for the budget year.** How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Fed E&E (\$241,875) HAIF E&E \$25,000 NFQC E&E \$200,000 ODP E&E \$16,875	<b>Note:</b> Expenditures in PS and E&E will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of governor's reserve, withheld amounts, and core reductions will impact how the flexibility will be used. The 100 percent flex on federal and other funds will allow the department to utilize non-GR resources as the need arises. Although the department cannot predict how much flexibility will be needed, the following flexibility has been authorized:  <div style="display: flex; justify-content: space-between;"> <span>FY-12 GR (PS+E&amp;E)</span> <span>\$129,872</span> </div> <div style="display: flex; justify-content: space-between;"> <span>FY-12 Fed and Other (E&amp;E)</span> <span>\$3,238,011</span> </div>	<b>Note:</b> Expenditures in PS and E&E will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. The 100 percent flex on federal and other funds will allow the department to utilize non-GR resources as the need arises. **3. Was flexibility approved in the Prior Year Budget or the Current Year Budget?** If so, how was the flexibility used during those years?

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
In FY 2011 \$241,875 was flexed between federal and other funds to pay for various department operating costs.	In FY 2012, 25 percent flexibility was appropriated between General Revenue PS and E&E appropriations and 100 percent flexibility in E&E between federal and other funds. This will allow the program to respond to changing situations to continue to provide high quality services to Missourians.

<b>2. CORE DESCRIPTION</b>									
<p>Senate Bills 74 and 49 (2005) created the Department of Health and Senior Services Disaster Fund to ensure the department can accept special allocations made by the federal government in the event of a public health emergency. The legislation creating the new fund was modeled after Section 44.032, RSMo, which created the Missouri Disaster Fund. The State Emergency Management Agency has used the Missouri Disaster Fund successfully to aid disaster victims for many years. Core funding from the Department of Health and Senior Services' Disaster Fund ensures the department will be able to quickly secure needed funding in order to respond rapidly in times of a state or national emergency.</p>

2. CORE DESCRIPTION									
The Division of Community and Public Health (DCPH) requests core funding to support its responsibilities to protect the health of Missourians. DCPH works with communities, local public health agencies (LPHAs), schools, organizations, and the healthcare delivery system to support and strengthen Missouri communities through disease prevention and control, access to essential healthcare, and health/wellness promotion. Programs in the division support Missouri's public health network consisting of 115 LPHAs that are locally governed and financially supported through local and state funds. Missouri's public health system is responsible for monitoring the disease trends of death and disability, health-related behaviors, and other factors that affect health. Along with community partners, DCPH identifies and monitors risks including personal behavior, social or economic conditions, communicable disease exposure, and the environment.									
This core funding supports the personnel responsible for disease control, prevention and emergency response (TB, H1N1, STDs, measles, West Nile); environmental health issues (foodborne illness outbreaks, radiological, on-site sewage, retail food safety, lodging sanitation and safety, and childcare safety and sanitation inspections); Ryan White AIDS program; immunizations; newborn screening follow-up (PKU, cystic fibrosis, sickle-cell, etc.); adolescent and school age children's health (teen pregnancy, injury and violence prevention); newborn health (healthy pregnancy, breastfeeding, and home visiting); Children with Special Health Care Needs; Adult Head Injury; Physical Disabilities Waiver; Healthy Children and Youth; Cancer and Chronic Disease Control (Show-Me Healthy Women, Wisewoman, heart disease, diabetes, asthma, arthritis, organ and tissue donation, etc.); tobacco prevention and cessation (Quitline); Nutrition Services (WIC, Summer Food); the Missouri Vital Records System; and collection, analysis, and distribution of health data.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802450	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Community & Public Health	<b>DIVISION:</b> Division of Community & Public Health

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2012, the Division of Community and Public Health (DCPH) was granted 25 percent flexibility between personal services and expense and equipment appropriations for General Revenue, federal funds, and Health Initiatives Fund; and 100 percent flexibility between Medicaid and non-Medicaid appropriations. DCPH requests that this level of flexibility be continued for FY 2013. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc.), 100 percent flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

DHSS requests 25 percent flexibility between PS and E&E for General Revenue and federal funds and 100 percent flexibility between Medicaid and non-Medicaid appropriations.

<b>2. CORE DESCRIPTION</b>									
<p>The requested core funding provides support to 115 local public health agencies throughout Missouri. These agencies are critical partners of the state's public health system. The public health system monitors disease incidence and responds to disease outbreaks (e.g., foodborne E-coli and salmonella). The public health system is essential in responding to public health emergencies and natural disasters by assuring safe food and water, identifying specific health needs within local communities, and mobilizing existing resources to address the needs. Public health system challenges are increasing daily due to global travel that can bring new and unknown diseases to our doorstep. Newly emerging diseases (e.g., pandemic virus strains such as H1N1) and the resurgence of old ones (e.g., tuberculosis or whooping cough) place new demands on the public health system to assure that such diseases or agents are recognized early and measures are taken to protect and promote the public's health and safety.</p> <p>The public health system is further challenged by chronic diseases such as diabetes and heart disease and risk factors including obesity, unhealthy eating, and smoking. Planning and implementing policies to reduce the burden of these diseases and risk factors will improve the quality of life for Missourians and will decrease health care costs.</p>

### 1. What does this program do?

Local Public Health Services (LPHS) The LPHS supports public health presence in every city and county in Missouri. LPHS administers contracts that supplement local health department efforts to provide essential public health services (core functions). Contract services include surveillance, investigation, and intervention in threats to health, whether caused by disease outbreaks (such as influenza), bioterrorism, emerging infections, food borne illnesses, or chronic disease. The contract also supplements local capacity to inspect food and lodging facilities, enforces regulations, provides health education, assesses community health and health resources, and identifies leading health and safety problems in communities. LPHS works to strengthen Missouri's public health system by providing technical assistance to local agencies, working with external partners to assure training opportunities for public health workers, assessing capacity, and setting standards of excellence in public health practice.

Maternal and Child Health (MCH) The MCH program distributes federal MCH Services Block Grant funds to local public health agencies through the MCH services contract. The contract purpose is to establish, within each local public health jurisdiction, a system that is capable of addressing targeted health issues for the MCH population of pregnant women, infants, children, and adolescents; women of child-bearing age; and children with special health care needs.

Child Care Health Consultation (CCHC) The CCHC program is a partnership between DHSS and the local public health agencies (LPHAs). Health professionals from LPHAs provide health and safety consultation and education to child care providers and parents of children in child care across the state. Health education is provided to young children in child care settings. Targeted health issues for the CCHC program include obesity prevention in young children and managing children with special health care needs in child care settings. Financial support for this state wide program includes: Child Care Block Grant, MCH Services Block Grant, Early Childhood Education and Care Fund through the Department of Social Services, and Center for Disease Control and Prevention (CDC) funding through the Asthma program.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Adolescent Health

Program is found in the following core budget(s):

	DCPH Program Operations	DCPH Programs and Contracts					TOTAL	
GR	2,386	0					2,386	
FEDERAL	34,086	178,973					213,059	
OTHER	54,775	0					54,775	
TOTAL	91,247	178,973					270,220	

#### 1. What does this program do?

This program provides consultation, education, training, and resources to assist health professionals, school personnel, parents, adolescents, state agencies, and community and state organizations in addressing various adolescent health concerns. Staff consult across department programs to strengthen capacity and expertise in addressing the health of adolescents and their families. This program provides:

- The Teen Outreach Program (TOP), which is an after school program with service learning opportunities that promote healthy youth development, improve academic outcomes, and protect adolescents from risk factors that contribute to teen pregnancy and other negative behaviors;
- Education on current adolescent health issues, including information available on the Department's Adolescent and Teen Health webpage;
- Consultation, training, and resources regarding best practices and evidence-based teen pregnancy and STD prevention programs; and
- Preconception health education curriculum resources for educators of teens and young adults.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Not applicable.

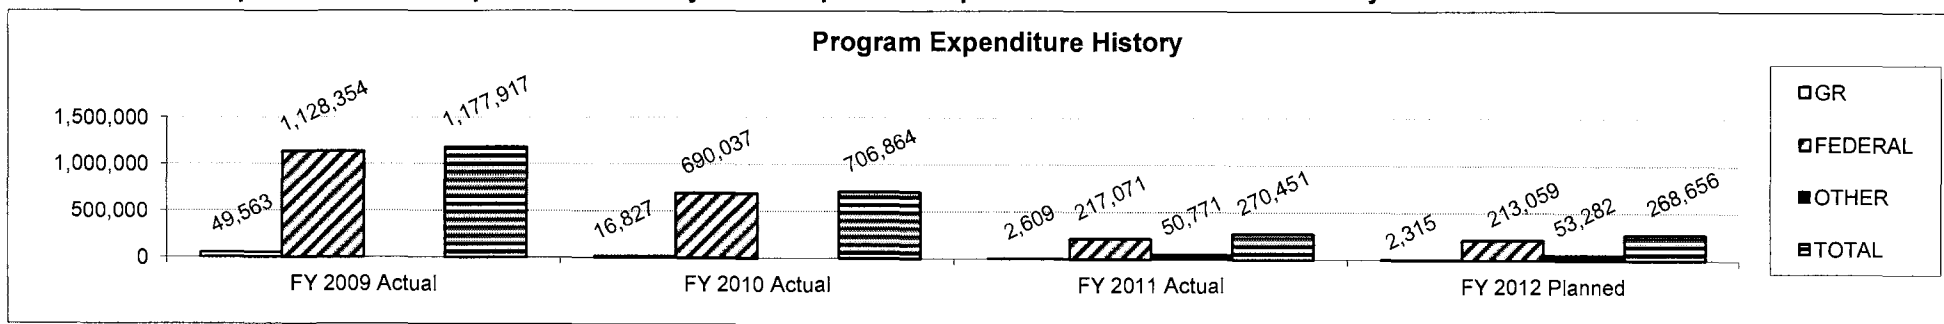

#### 3. Are there federal matching requirements? If yes, please explain.

The Maternal and Child Health Block Grant supports this program with a \$3 non-federal/\$4 federal match and maintenance of effort.

#### 4. Is this a federally mandated program? If yes, please explain.

No.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

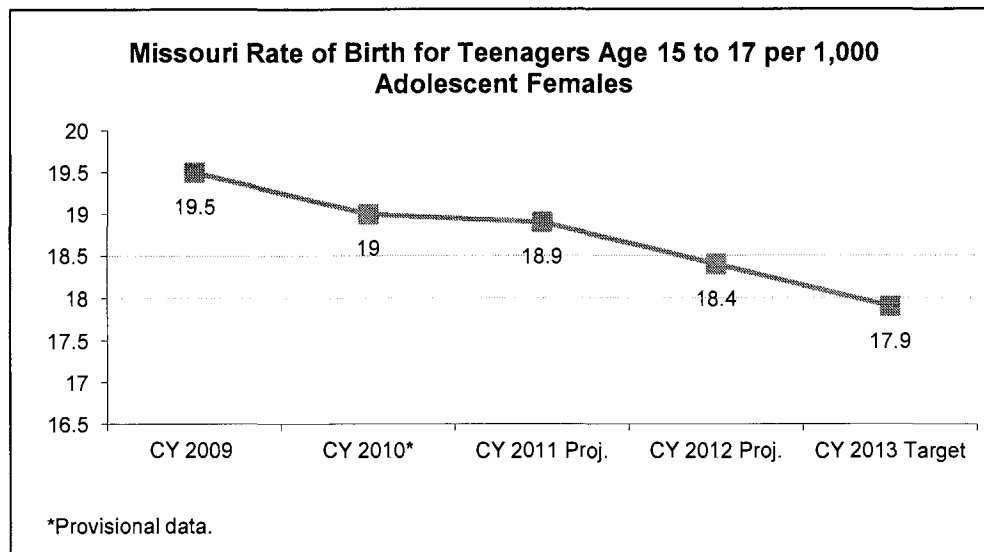

### Health and Senior Services

#### Adolescent Health

#### 6. What are the sources of the "Other" funds?

Not applicable.

#### 7a. Provide an effectiveness measure.

Missouri and National Youth Risk Behavior Survey (YRBS) data are used to measure health status indicators for injury and violence, tobacco use, alcohol and other drug use, physical activity, and nutrition and sexual behaviors of high school students. One measure is the following:

#### Percentage of High School Students Who Report Having Had Sexual Intercourse\*

	2007	2009	2011 Proj.**	2013 Proj.
MO	52%	49%	48%	47%
U.S.	48%	46%	47%	46%

\*Missouri and national data are collected every other year.

\*\*Data to be released early in 2012.

#### 7b. Provide an efficiency measure.

##### Average Cost Per Client Served

Program	FY 2009	FY 2010	FY 2011	FY 2012 Proj.**	FY 2013 Target
Teen Outreach Program* (National Average = \$620)	\$336.67	\$355.64	\$382.26	\$400.00	\$355.00

\*Missouri cost per Teen Outreach Program (TOP) client includes approximately 40 hours per youth per year. A national 2007 benefit-cost study found that for every \$620 invested, \$802 is saved in societal costs (e.g., welfare, remedial education, criminal justice, earnings, and taxes).

\*\*In FY 2012 new TOP contracts will be awarded. It is anticipated that start-up program costs will result in an increased cost per client during the first year and a decrease in following year(s).

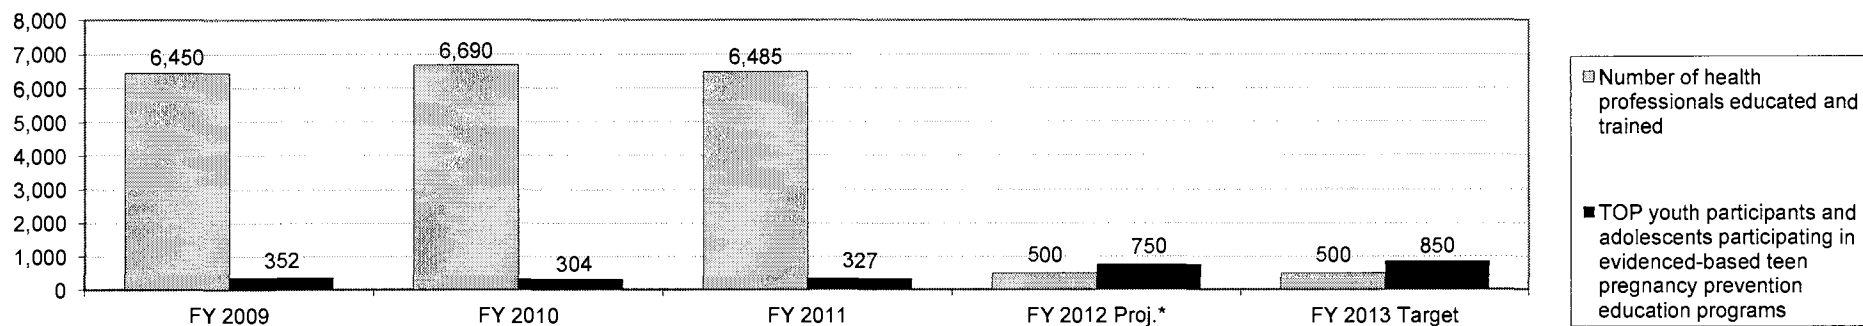

## PROGRAM DESCRIPTION

### Health and Senior Services

7c. Provide the number of clients/individuals served, if applicable.

**Clients Served**

\*Due to reduced funding in FY 2012, the newsletter will not be published, resulting in fewer health professionals receiving education.

7d. Provide a customer satisfaction measure, if available.

#### **Adolescent Shorts Newsletter\***

#### 1. What does this program do?

The Adult Brain Injury (ABI) Program assists Missouri residents age 21 to 65 who have survived a traumatic brain injury (TBI). The goal of the ABI Program is to enable TBI survivors to obtain the highest possible level of independent living, community participation, and employment. The ABI Program provides service coordination and community-based provider rehabilitation services, develops and monitors the participant's individualized goal-directed plan of service, and builds natural support systems that result in successful re-integration into the community. The program provides staff support to the Missouri Brain Injury Advisory Council, which is charged with the responsibility to develop, recommend, and coordinate policies to prevent TBI and to restore independent and productive lifestyles after TBI. The program staff also manage a TBI Grant from the Department of Health and Human Services, which focuses on TBI system change initiatives and public awareness.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 192.735-192.745, 199.003-199.009, and 304.028, RSMo; Title XIX of Social Security Act.

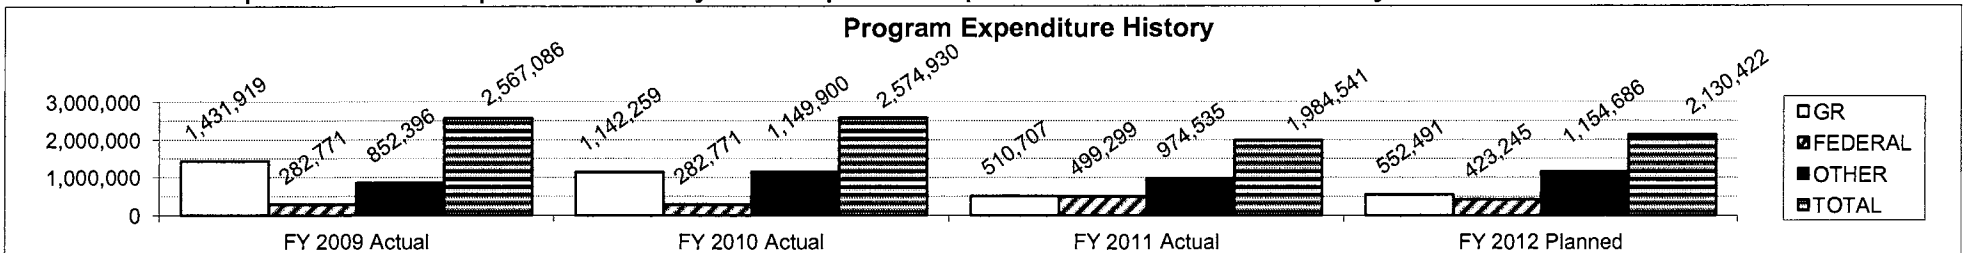

#### 3. Are there federal matching requirements? If yes, please explain.

Medicaid funds support a portion of this program with a 50 percent General Revenue/50 percent federal match for service coordination through the ABI Program. The TBI Grant requires a 50 percent match of state funds for every federal dollar granted. TBI Grant funds may not be used for direct services.

#### 4. Is this a federally mandated program? If yes, please explain.

No, however to receive the federal TBI Grant, an advisory council must be in existence.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Cancer affects three out of four Missouri families and one of every five Missourians has cardiovascular disease. Chronic diseases such as cancer, heart disease, stroke, diabetes, arthritis, and asthma account for the bulk of public and private health care costs, and have costs associated with lost productivity, disability, and death. In the U.S., 75 percent of health care costs are related to treatment for chronic diseases. The Chronic Disease Program supports the prevention and control of chronic diseases through initiatives to control blood pressure and cholesterol, promote health screening and early detection of disease, increase knowledge of signs and symptoms of heart disease and stroke, improve use of 911 for signs and symptoms, reduce health disparities, improve the quality of school health services, and provide quality chronic care management. Activities of the chronic disease control programs include:

- Assess the burden of cancer, heart disease, stroke, diabetes, arthritis, osteoporosis, asthma, and other chronic diseases;
- Increase screening and early detection of chronic diseases;
- Support evidenced-based and self-management programs for people with chronic diseases;
- Support quality improvement initiatives in the healthcare system to improve chronic disease care;
- Provide professional education opportunities and technical assistance for physicians, nurses, and other allied health professionals;
- Maintain the Missouri Organ and Tissue Donor Registry of Missouri residents to increase the number of people who receive life-saving transplants;

<b>TOTAL</b>	<b>1,370,076</b>	<b>487,171</b>						<b>1,857,247</b>

#### 1. What does this program do?

The goal of the Bureau of Communicable Disease Control and Prevention (BCDCP) is to protect the public through improved preparedness and the investigation, prevention, and control of 91 reportable communicable diseases and conditions of public health significance in Missouri. Many of these are emerging diseases such as multi-drug resistant tuberculosis, Novel influenza A virus infections, and zoonotic diseases. The program maintains two statewide surveillance systems, WebSurv and ESSENCE. WebSurv captures individual disease case reports while ESSENCE captures syndromic information gathered electronically from hospital emergency room visits. Analysis of case reports from WebSurv and chief complaints from ESSENCE assists in identifying trends, emerging conditions/issues, and early event detection. There are currently federally funded prevention programs in place for Tuberculosis (TB), Enteric Disease Programs, ESSENCE, and public health preparedness in addition to the general communicable disease control program that is funded through state general revenue. The TB Program provides case management services to tuberculosis disease and latent tuberculosis disease cases through the local public health agencies. Tuberculosis medications are provided at no cost to patients.

The BCDCP programs investigate the cause, origin, and method of transmission of communicable diseases in order to implement appropriate disease control and prevention measures. These include case/contact identification, testing, treatment, and source identification. BCDCP provides training and technical assistance to local health officials to prevent communicable diseases in their communities and rapidly respond to outbreaks of infectious disease when identified. BCDCP coordinates with government at all levels, community organizations, hospitals, health care providers, and the media to implement control measures and educate the public during local, statewide, national, and worldwide outbreaks of communicable diseases.

Additional activities include community planning and response for emergencies such as bioterrorism, pandemic influenza, and natural disasters such as flooding and earthquakes. The program staff is responsible for public health surveillance, disease investigation, and disease-related community education associated with these events.

### 1. What does this program do?

The Environmental Public Health Program reduces the risk of disease and illness in Missouri by implementing and assuring appropriate sanitation and safety practices through the inspection and licensing of lodging establishments and frozen dessert machines; permitting construction of on-site sewage systems; training and registering on-site sewage system installers and inspectors; accrediting lead abatement training programs; licensing lead abatement professionals and contractors; monitoring lead abatement projects and training programs; and providing lead-safe work practices information and presentations to parents, homeowners, property owners, remodeling professionals, schools, etc. The program also inspects restaurants, grocery stores, bakeries, and food manufacturing/processing plants; responds to food recalls; and inspects summer food sites for children. In addition, the program is responsible for the annual health and sanitation inspections of child care facilities and those operated by religious organizations. The sanitation inspections are conducted through a contract with the local public health agencies.

The Environmental Public Health Program also provides information and technical support to the public and to regulatory agencies on a variety of issues related to hazardous substance exposures. The program assesses risks, determines appropriate clean up levels, and educates communities on exposure reduction for hazardous substances at hazardous waste sites and during emergencies. Staff also sample residential drinking water wells that may be affected by hazardous substances. When warranted, environmental epidemiology studies are conducted. The program evaluates exposure to radon in schools, homes, and child care centers. Technical assistance is provided to assist in remediating indoor air quality and other healthy indoor environmental issues. An annual fish consumption advisory provides information to the public on fish consumption safety. The program assures that at-risk children are tested for lead poisoning and receive appropriate environmental and medical follow-up, as well as providing lead health education to parents, medical providers, and others on the importance of blood lead testing and reporting. Data on environmental health hazards, exposure to the hazards, and health effects related to those hazards is collected, integrated, and analyzed. Finally, the program has a team of staff who are trained and prepared to respond to incidents involving radioactive materials.

#### 1. What does this program do?

The Bureau of Health Informatics collects, analyzes, and distributes information that promotes better understanding of health-related problems and needs in Missouri, as well as spotlighting progress achieved in the general health status of Missourians. The Bureau provides data that aid and guide the planning, development, and evaluation of programs and services of the department as well as the related activities of other agencies, institutions, and organizations. While the data collected are primarily valuable to help solve Missouri problems, much of the activity of the Vital Statistics Analysis unit is coordinated with the National Center for Health Statistics, which facilitates the collection of comparable data across all states to form a picture of the health status of the nation. This unit works in close collaboration with the Bureau of Vital Records. This unit also provides statistical and analytic support to the maternal and child health programs, and serves as a primary resource for state and local health planning efforts. The Health Data Dissemination unit coordinates the preparation and publication of health data and statistics on the department's website. The Missouri Information for Community Assessment (MICA) System was developed and is being maintained and expanded to increase health data transparency by making health data accessible at the local level, through an easy-to-use format. MICA is an interactive web-based data query system that allows users access to summary statistics on a wide spectrum of health conditions and health status measures, in tabular and graphic formats. Users may generate ad hoc data tables or maps by year of occurrence, age, gender, race, county, and zip code of residence. This unit also provides the population estimates used for health statistic rate calculations. The Healthcare Data Analysis unit collects and analyzes patient abstract data (PAS) and healthcare-associated infection data submitted by hospitals and ambulatory surgical centers. Consumer-focused data from these sources are made available to the public through interactive, web-based tools. This unit also develops statistics regarding Missouri health manpower and health facilities, including hospital revenues and financial data. These statistics are compiled from the information obtained on annual surveys submitted by individual practitioners and facilities. This unit also has responsibility for analyzing data related to injuries in Missouri. Data sets that provide injury information include the PAS data, death certificate data, and motor vehicle crash records that are linked to the PAS data. The Information Support Unit provides support to division programs in developing and implementing public information/education campaigns, increases the awareness of health issues by developing news releases and articles, formats burden reports and other health guides, updates and creates web pages, and provides crisis communication during emergency response and terrorism events.

**1. What does this program do?**

The Health Promotion Program activities include a multi-faceted approach to improving the lives of Missourians by addressing tobacco use, obesity, physical activity, and healthy eating. The Health Promotion Program implements various evidence-based interventions designed to reduce tobacco use and exposure to second-hand smoke, increase physical activity and healthy eating, and increase healthy behaviors in the workplace. These interventions are implemented in communities, schools, and worksites by staff and contractors and result in reduced tobacco-related activities and deaths, rates of obesity, and onset of chronic diseases.

Health Promotion staff also support the Governor's Council on Physical Fitness and Health, which promotes physical fitness and health by implementing programs, fostering communication and cooperation, and developing statewide support to help citizens maintain healthier lifestyles. The Governor's Council on Physical Fitness and Health oversees the Shape-Up Missouri program and partners with the University of Missouri, the Senior State Games, and the Show-Me State Games.

<b>TOTAL</b>	2,965,127	26,051,593					29,016,720

### 1. What does this program do?

The program's purpose is to provide prevention and intervention activities designed to control and reduce Human Immunodeficiency Virus (HIV), sexually transmitted diseases (STD), and viral hepatitis morbidity throughout the state; maintain a quality surveillance system to assure disease case reporting and analysis of morbidity and trends; and to assure HIV infected persons are linked to and receive care and case management services. Specific activities include intensive investigation of HIV, Acquired Immune Deficiency Syndrome (AIDS), syphilis, gonorrhea, chlamydia, hepatitis B, and hepatitis C cases that involve counseling, partner elicitation and notification, testing, referral for treatment, vaccination, and care with the primary goal of stopping the spread of disease, preventing re-infection, and preventing health threatening outcomes. Testing is made available at no cost for most of these diseases at Missouri's Local Public Health Agencies and a variety of other agencies that serve high risk populations. Case management services are provided for women that are pregnant and infected with hepatitis B to prevent perinatal transmission. Additional activities include community planning, health education, social marketing, behavioral interventions, outreach screening and education, and research projects. The program links low-income Missourians living with HIV disease to various health and supportive services including lifesaving medications through a statewide HIV case management system; links clients to existing federal, state, and local assistance programs based on an assessment of need and client eligibility; serves as a payer of last resort for clients who have no other access to care and treatment; and provides medications, medical care, dental services, transportation to physician offices, and emergency housing assistance to HIV positive (HIV+) clients. Services to those living with HIV reduce viral loads in these individuals, resulting in fewer new transmissions and healthier individuals that can continue working, thus delaying the need for costly Medicaid services.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 191.653, 191.656, and 191.677, RSMo; Public Law 109-415 (Ryan White HIV/AIDS Treatment Modernization Act of 2006); and Acquired Immune Deficiency Syndrome (AIDS) Housing Opportunity Act, 42 USC Section 12901.

### 3. Are there federal matching requirements?

Yes. For each \$2 of federal funding there is a required \$1 state match for the Ryan White Grant.

### 4. Is this a federally mandated program? If yes, please explain.

No.

### 1. What does this program do?

The Newborn Services program promotes healthy birth outcomes and healthy infants by: providing in-home visits for prenatal and post-partum women and their infants through age two identified to be at risk for poor pregnancy and infant health outcomes; helping women alter their health-related behaviors; helping parents provide more responsible care for their children; improving the family's economic self-sufficiency by helping parents develop a vision for their own future; increasing the number of women who initiate and continue to breastfeed their infants through the first year of life; reducing the risk of pregnancies exposed to alcohol, tobacco, and other drugs; researching the cause of maternal deaths and developing interventions to ameliorate causes through the Pregnancy Associated Mortality Review project; increasing awareness through educational activities and materials; using messages and activities to promote the importance of early entry into prenatal care; promoting use of folic acid to reduce the risk of birth defects; helping women receive preventive health screenings; and screening all newborns in Missouri for 67 disorders within the following categories: congenital adrenal hyperplasia, cystic fibrosis, primary congenital hypothyroidism, classical galactosemia, amino acid disorders including phenylketonuria, organic acid disorders, fatty acid disorders, biotinidase deficiency, and hemoglobinopathies. Screening for hearing loss is also conducted on newborns. Infants who have abnormal screening results are tracked to ensure that either a repeat newborn screen or a confirmatory test has been done. A Maternal Child Health Information and Referral Line (1-800-TEL-LINK) is available to connect families with programs and services. Missouri has also applied for the Affordable Care Act (ACA) Home Visitation Grant, for which DHSS was named as the lead agency for the state. The grant focuses on evidence-based home visitation models for mothers and women of child-bearing age and children up to age five. Grant goals include healthier birth outcomes; improved maternal and prenatal health; growth and development; and increasing school readiness. The three evidence-based home visitation models chosen for the grant are Early Headstart Home-Based Option, Nurse Family Partnership, and Parents As Teachers.

### 1. What does this program do?

The Office of Epidemiology (OOE) provides epidemiologic leadership and expertise for the division, the department, local public health agencies, and other stakeholders and partners to guide public health practice. The OOE monitors health status and health risk behaviors through effective use of public health surveillance; plans and evaluates public health programs; promotes evidence-based public health interventions; tests and researches public health interventions; provides epidemiologic and medical consultation; and conducts epidemiologic teaching and training. The OOE coordinates functions to assist in achieving better health outcomes through grant development and management of the Missouri Cancer Registry and State Systems Development Initiative Grant. The OOE provides key analytical and epidemiological support towards the development of the Maternal and Child Health (MCH) block grant application and objectives/targets for various national and state performance measures. OOE also leads evaluation of community health programs, performs statewide need/capacity assessments, and develops contracts to support major surveillance systems managed by the department, such as the Behavioral Risk Factor Surveillance System (BRFSS) and the Pregnancy Risk Assessment Monitoring System (PRAMS). The BRFSS is a Centers for Disease Control and Prevention (CDC) funded state-based telephone health survey that annually collects information on a range of health conditions, diseases, risk factors, and preventive practices among adults age 18 or older. PRAMS is a CDC funded population-based surveillance system that collects state-specific data on maternal behaviors, attitudes and experiences before, during, and shortly after pregnancy. The State Systems Development Initiative is a Health Resources and Services Administration funded initiative whose main purpose to assure that the MCH programs and Title V agency have access to policy and program-relevant information and data.

The AIDS Drug Assistance Program (ADAP) is a statewide program that provides life-sustaining medications to low income Missourians living with HIV disease who do not have access through private insurance, Medicaid, or Medicare. Medications stabilize client health and their ability to continue to work, reduce susceptibility to infection, and prevent AIDS-related disability determinations that would make clients eligible for Medicaid. As program costs have increased, the federal government has made additional funding available to the state. Additional federal appropriation authority is needed to bring appropriations in line with anticipated expenditures. This program requires a 50 percent state match for increases to grant funding. DHSS has collaborated with the Missouri Department of Corrections to obtain the required match. ADAP is authorized through the Ryan White Modernization Act of 2010.

Federal funding available for ADAP exceeded the amounts appropriated in FY 2011, so the appropriations were administratively increased to enable the department to continue providing medications to eligible Missourians. Additional federal appropriation authority is requested cover projected FY 2013 expenditure levels. The increase is based on the federal Ryan White ACT Formula grant award and rebates generated from the purchase of HIV medications.

Funding is requested to support the Child and Adult Care Food Program (CACFP), the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), and the Summer Food Service Program (SFSP). CACFP reimburses child and adult care facilities for nutritious meals served to children and adults enrolled for care and for meals served to children in after-school enrichment programs and emergency homeless shelters, to improve their nutrient intake, and contribute to the development of healthy eating habits. The WIC Special Supplemental Nutrition Program includes benefits for health screening and risk assessment, nutrition counseling, breastfeeding promotion, and support and referrals that assure access to quality healthcare services and supplemental prescribed foods. The SFSP reimburses eligible sponsoring organizations to provide meals to low-income children age 18 and under when school is not in session, improving their nutrient intake, reducing their risk for nutritionally-related health problems, and enhancing their learning capabilities when they return to school.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Child and Adult Care Food Program (CACFP) and the Women, Infants, and Children (WIC) Supplemental Nutrition Program experienced increased participation and increased food costs in FY 2011. Additional federal spending authority is needed to bring appropriations in line with actual expenditures. CACFP reimburses child and adult care facilities for nutritious meals served to children and adults and for meals served to children in after-school enrichment programs and emergency homeless shelters. WIC provides health screening, risk assessment, nutrition counseling, support, and referrals that assure access to quality healthcare services and supplemental prescribed foods. CACFP is authorized by the William B. Russel National School Lunch Act, 42 USC 1766, Section 17; and Section 210.251, RSMo. WIC Supplemental Nutrition is authorized by the Child Nutrition Act of 1966, 42 USC, Sections 1771 and 1786.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Federal funding available for nutrition programs exceeded the amounts appropriated in FY 2011, so the appropriations were adiministratively increased to enable the department to continue providing nutrition assistance to eligible Missourians. This request will increase the appropriations for WIC and CACFP to the amounts expended in FY 2011.

## 2. CORE DESCRIPTION

The Center for Emergency Response and Terrorism (CERT) coordinates planning and response activities for public health emergencies, such as natural disasters (i.e. floods, tornadoes, earthquakes, influenza pandemics, and disease outbreaks) and man-made disasters (i.e. environmental hazardous spills, biological and chemical terrorism, and nuclear power plant accidents). Through the Department Situation Room, CERT provides emergency reporting of disease outbreaks and other disasters, as well as the coordination of the department's response to those events. CERT works to ensure the Strategic National Stockpile (SNS), a supply of medications, antidotes, and medical supplies, can be disseminated in a timely and efficient manner. Through the SNS Cities Readiness Initiative (CRI), CERT coordinates closely with local agencies in the Kansas City and St. Louis areas to plan and increase capacity for delivering these medical countermeasures within 48 hours. Because of CRI's regional emphasis, CERT helps coordinate planning with Illinois and Kansas. The CHEMPACK program provides pre-positioned nerve agent and chemical weapon antidotes and other supplies. Through partnerships with local public health agencies, hospitals and other health care organizations, local government and law enforcement agencies, schools, and other partners, CERT works to assure systems are in place to protect the health of Missourians during a public health emergency. CERT collaborates with key healthcare organizations and associations across Missouri to develop and enhance hospital and other health care entities' capacity and capability to respond to various public health emergencies. CERT coordinates local emergency response plans through contracts with all 115 Missouri local public health agencies, and these contracts are monitored on an annual basis. CERT designs, conducts, organizes, and evaluates training exercises across the state. Training and exercises help responders practice, build partnerships, and aid in finding problems in planning before a real situation occurs. CERT assists in establishing Medical Reserve Corps in communities and manages the web-based Show-Me Response program that registers, checks credentials, manages, and activates emergency health care volunteers. The Ready in 3 program provides educational preparedness materials for individuals. CERT is responsible for two federal grants: the Public Health Emergency Preparedness/Cities Readiness Initiative Grant and the Assistant Secretary for Preparedness and Response (ASPR) Hospital Preparedness Grant.

### 1. What does this program do?

The Center for Emergency Response and Terrorism (CERT) protects Missouri citizens during a public health emergency, including a pandemic influenza or terrorist attack. The Department of Health and Senior Services (DHSS), working with federal and local partners, is building a stronger public health system to respond to potential biological, chemical, or nuclear emergencies as well as emerging infectious diseases and pandemic influenza. DHSS works closely with local public health agencies, schools, hospitals, universities, communities, special needs populations, health care associations, local government agencies, law enforcement, and other partners to build a comprehensive system that can respond quickly at the local, regional, and state levels. CERT is also working to ensure the Strategic National Stockpile (SNS), a supply of medications, antidotes, and medical supplies, can be disseminated in a timely and efficient manner. The Cities Readiness Initiative is a Centers for Disease Control and Prevention (CDC) effort focusing on the Kansas City and St. Louis regions. CERT operates a Department Situation Room, coordinates the statewide public health response, oversees planning at the state and local levels, provides a Ready in 3 educational outreach program, offers trainings, technical assistance, and conducts grant and contract oversight. CERT receives funding from the CDC Public Health Emergency Preparedness Grant and the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response (ASPR) Hospital Preparedness Grant.

In addition to supporting CERT, funding has allowed the State Public Health Laboratory (SPHL) to add rapid testing capability, shortening the average turnaround time for a presumptive result to four hours. In an emergency, this technology can be utilized to test upwards of 700 specimens in a 24-hour period. Not only does this funding allow the SPHL to test for most of the CDC's Category A and B agents of terrorism, but the new instrumentation can be used for our day-to-day business of testing for non-bioterrorism related diseases such as whooping cough (pertussis), tularemia, norovirus, brucellosis, influenza, and emerging pathogens not yet seen in Missouri. The funding has also allowed the development of the Chemical Terrorism Response Program at the SPHL. As a part of its responsibilities, the SPHL has successfully implemented methods for the analysis of various chemical terrorism agents, including cyanide, heavy metals, nerve agents, and metabolic toxins. The laboratory now has the capability to conduct biomonitoring studies when instruments are not being utilized for a chemical event. This program will provide the information necessary to help link exposure to a toxic substance and the development of disease in communities across the state.

The ASPR Grant funding is used to upgrade the state's health care system through enhanced disease reporting systems, decontamination equipment, and communication systems. This funding also enables hospitals throughout the state to be better prepared to handle epidemics of rare diseases, exposures to chemical toxins, and mass casualties. In the next grant year, the Hospital Preparedness Program will continue to focus on interoperable communication systems, tracking of bed availability, Emergency System for Advanced Registration of Health Professionals (ESAR-VHP), fatality management, medical evacuation/shelter in place, and partnership/coalition development.

### 2. CORE DESCRIPTION

The State Public Health Laboratory (SPHL) is vitally important to community health, providing a broad range of disease control and surveillance, preventive healthcare, emergency preparedness, all-hazards laboratory response, environmental monitoring, and laboratory improvement services. The SPHL operates specialty units in Jefferson City and Poplar Bluff providing services to physicians, veterinarians, law enforcement, local and district public health personnel, hospitals, and private laboratories. The SPHL conducts testing in the fields of STD serology, virology, microbiology, tuberculosis, chemistry, environmental bacteriology, and newborn screening, allowing medical practitioners to identify harmful conditions and provide appropriate treatment. The SPHL also conducts analyses of water and food to assure its safe use. The SPHL is the reference laboratory in the state, serving the department, local health agencies, and medical professionals and institutions throughout Missouri. The SPHL is the leader in the state for acquiring and implementing advanced technologies and methodologies to detect newly emerging or re-emerging diseases of public health consequence. Examples include H1N1 and future pandemic strains of influenza, West Nile virus, antibiotic-resistant bacteria, avian influenza, and extensively drug-resistant tuberculosis.

Serving as the primary state response laboratory for biological and chemical terrorism events, the SPHL also conducts program evaluations for municipal, hospital, and private laboratories; supports public safety programs (implied consent/breath alcohol); and supervises certifications and operations of breath alcohol analyzers. Disease outbreaks and exposures to toxic substances are major public health concerns. Many programs within state government require routine and specialized public health laboratory services to support their objectives in protecting the health of the public and in supporting programs that assure the health of communities.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802015	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> State Public Health Lab	<b>DIVISION:</b> Division of Community and Public Health

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2012, the State Public Health Lab (SPHL) was granted 25 percent flexibility between personal services and expense and equipment appropriations for General Revenue, federal funds, the Missouri Public Health Service Fund, and the Childhood Lead Testing Fund. Also, 100 percent flexibility was granted between Medicaid and non-Medicaid appropriations and between the Missouri Public Health Service Fund and the Childhood Lead Testing Fund. The SPHL requests that this level of flexibility be continued for FY 2013. This flexibility will help ensure the SPHL can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc.), 100 percent flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

DHSS requests 25 percent flexibility between PS and E&E for General Revenue, federal, and other funds; 100 percent flexibility between Medicaid and Non-Medicaid appropriations; and 100 percent flexibility between the Missouri Public Health Services Fund and the Childhood Lead Testing Fund.

**1. What does this program do?**

The Missouri State Public Health Laboratory (SPHL) provides laboratory support in the diagnosis and investigation of health problems and health hazards that threaten public safety. Responsibilities include specimen analysis and isolation identification, disease control and surveillance, reference and specialized testing, food safety, and emergency terrorism response. The SPHL is accredited under the Clinical Laboratory Improvement Amendments and possesses the required capabilities to provide specialized testing for tuberculosis, rabies, botulism, anthrax, West Nile Virus, plague, various chemical contaminants, and to identify newly emerging threats such as avian flu, pandemic influenza, and more recently, the H1N1 virus.

Mandated by Missouri law, the DHSS screens infants born in Missouri for the presence of certain genetic and metabolic disorders. Missouri screens infants for 29 conditions with screening samples tested at the SPHL. Hospitals perform hearing screenings prior to discharge, with the SPHL screening for the remaining 28 conditions within the Uniform Condition Panel recommended by the American College of Medical Genetics. Within the following categories 67 disorders can be detected: congenital adrenal hyperplasia, cystic fibrosis, primary congenital hypothyroidism, classical galactosemia, amino acid disorders including phenylketonuria, organic acid disorders, fatty acid disorders, hemoglobinopathies, and biotinidase deficiency. The results of these laboratory tests provide early detection of these conditions that otherwise may not be detected until illness, disability, or death occurs. In addition, adult samples from parents of infants with abnormal hemoglobin results are tested when referred as part of genetic counseling by healthcare providers.

The Breath Alcohol Program in the SPHL approves, disapproves, and issues permits to law enforcement agencies in Missouri for chemical analysis of blood, breath, urine, or saliva for alcohol and drugs. This unit approves evidential breath analyzers and establishes standards and methods for instrument operation, inspections, quality control issues, training, and approval of training to assure standards are met according to state regulations.

Additionally, the SPHL performs bacteriological testing of nearly 65,000 samples each year from more than 2,000 public water supplies in Missouri to ensure state and federal regulatory requirements for safe water are met. These water supplies serve more than 50 percent of the state's population.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 196 RSMo; Sections 191.331-333, 191.653, 192.020, 192.050, 306.114, 306.117, 577.020, .026, .037, .208; 640.100-140, and 701.322, RSMo; Code of State Regulations 10 CSR 60-1.010, 19 CSR 20-20.080, 19 CSR 25-32.010, 19 CSR 25-34.010; and Clinical Laboratory Improvement Amendment (CLIA) Federal: 42 USC 263a.

**3. Are there federal matching requirements? If yes, please explain.**

The Missouri Public Health Services Fund (0298) will provide a match for newborn screening for the MCH Block Grant in the amount of \$1 million in the upcoming federal fiscal year.

**4. Is this a federally mandated program? If yes, please explain.**

No, however in testing clinical human specimens, the SPHL is regulated under the Clinical Laboratory Improvement Amendment (CLIA) - Federal - 42 USC 263a. The CLIA established quality standards for all laboratory testing to ensure the accuracy, reliability and timeliness of patient test results regardless of where the test was performed.

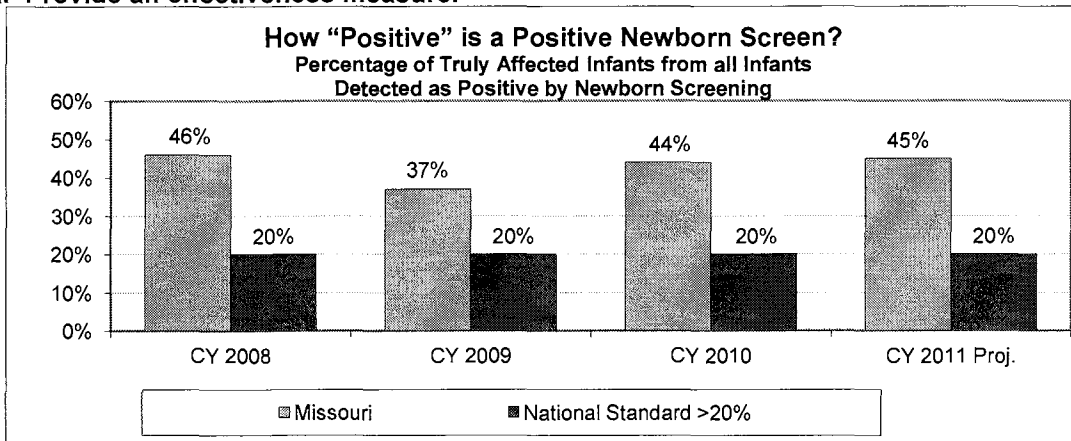

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other" funds?**

Missouri Public Health Services (0298), Safe Drinking Water (0679), and Childhood Lead Testing (0899).

**7a. Provide an effectiveness measure.**

**7b. Provide an efficiency measure.**

\*Direct costs include payroll, fringe benefits, expense and equipment and depreciation that can be directly tied to a testing activity.

The State Public Health Laboratory (SPHL) processes and tests 100 percent of the drinking water samples it receives on the same day. Routine test results are reported within 24 to 30 hours of sample receipt (one-day turnaround time).

**7c. Provide the number of clients/individuals served, if applicable.**

In FY 2010, the SPHL conducted over 5,000,000 analyses on nearly 375,000 specimens and samples; distributed 406,920 test kits to partners in Missouri's public health system and to Missouri citizens; and trained 120 laboratory professionals representing 74 facilities offered in nine regional sessions by our Emergency Response, Outreach, and Training unit.

## 2. CORE DESCRIPTION

This core funding supports staff and operations of the Division of Senior and Disability Services (DSDS). DSDS is comprised of the Office of the Division Director (including the director, deputy director, and administrative staff); financial support staff; the Office of Long Term Care Ombudsman; the Section for Adult Protective and Community Services; the Special Investigation Unit; the Bureau of Senior Programs; and the Central Registry Unit (Elder Abuse Hotline and Intake). DSDS plays a crucial role as the state unit on aging and is the primary agency that oversees, monitors, and assures the health and safety of seniors and adults with disabilities receiving long-term care in their home or community as an alternative to facility-based care. DSDS investigates allegations of abuse, neglect, and financial exploitation of seniors and adults with disabilities; registers hotlines and regulatory complaints regarding care; informs individuals considering long-term care about home-based care options; provides oversight for eligibility determinations and authorizations of state and federally funded Home and Community Based (HCB) services for Medicaid participants and other eligible adults; advocates for resident rights and resolves complaints regarding nursing facility care; monitors the delivery of HCB services; provides customer service to seniors and adults with disabilities and their caregivers; and oversees the Older Americans Act funded programs administered by the Area Agencies on Aging.

Funding is utilized to support adult protective service activities, crisis intervention, complaint investigation, and quality assurance activities as mandated under Chapter 198, RSMo (Mandated Reporters); Chapter 565, RSMo (Offenses Against Persons); Section 570.145, RSMo (Financial Exploitation of the Elderly); Chapter 660, RSMo (Protective Services for the Elderly); participation in the Medicaid State Plan, the Aged and Disabled Waiver, and the Independent Living Waiver (1915c) (Centers for Medicare and Medicaid Services); and the Older Americans Act.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802800	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Senior & Disability Services	<b>DIVISION:</b> Division of Senior & Disability Services

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2012, the Division of Senior and Disability Services (DSDS) was granted 25 percent flexibility between personal services and expense and equipment appropriations for General Revenue and federal funds and 100 percent flexibility between Medicaid and non-Medicaid appropriations. The Division of Senior and Disability Services requests that this level of flexibility be continued for FY 2013. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc.), 100 percent flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

In FY 2011, flexibility was used between non-Medicaid and Medicaid PS appropriations to cover payroll expenditures.	In FY 2012, 25 percent flexibility was appropriated between PS and E&E appropriations for General Revenue and federal funds and 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide high quality services to Missourians.

#### 1. What does this program do?

The Long Term Care Ombudsman Program (LTCOP) advocates for the rights of residents of licensed long-term care (LTC) facilities. The LTCOP receives, investigates, and resolves complaints made by or on behalf of LTC residents. The program maintains a toll-free number for residents and family members to access ombudsman services. Four state employees oversee the ombudsman program, which includes 14 regional ombudsman employees contracted by the Area Agencies on Aging and 270 ombudsman volunteers. Staff provide educational materials to the public through presentations on many topics involving LTC residents (i.e. choosing a nursing home, preventing abuse and neglect, starting a resident or family council, etc.). State staff monitor the regional programs, which are part of the Area Agencies on Aging network of services. LTCOP recruits and trains ombudsman volunteers to resolve issues in facilities. The program resolves an average of 5,000 complaints each year.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

PL 89-73 Older Americans Act, updated by PL 109-365; 42 U.S.C., Section 3058; and Section 660.600 - 660.608, RSMo.

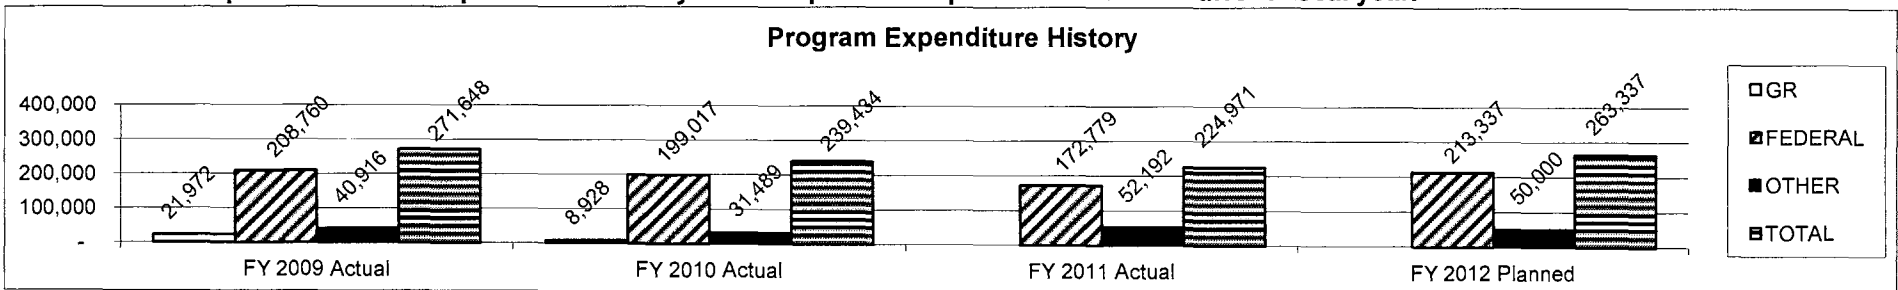

#### 3. Are there federal matching requirements? If yes, please explain.

No. However, there is a federal matching requirement for ombudsman funding from the Older Americans Act.

#### 4. Is this a federally mandated program? If yes, please explain.

Yes. States receiving Older Americans Act funding are mandated to have a long-term care ombudsman serving residents statewide.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Funding is requested to continue staffing the Division of Senior and Disability Services (DSDS) call center and assessment unit in FY 2013. The department accomplished these activities in FY 2012 by utilizing temporary, non-Merit System staff. The costs of such staff were covered by the Medicaid Home and Community-Based (HCB) Services Program. Since DSDS intends to continue performing the call center and assessment functions in FY 2013, 90 of the temporary, non-Merit System staff hired in FY 2012 must be converted to regular status. The staff will: 1) process new requests for Medicaid HCBS; 2) process care plan changes for current participants; and 3) review and oversee annual reassessments for eligible disabled adults who are age 18-59 and those over age 60. The activities performed by these staff will help ensure that seniors and persons with disabilities are given the opportunity to remain in their homes and communities rather than entering a nursing facility. Funding is also requested to pay for client reassessments completed by HCB providers.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

When an individual requests Medicaid HCB services, an Adult Protective Community Worker (APCW) will perform a prescreen at the DSDS Call Center to determine if the individual meets the basic eligibility criteria. If the criteria are met, an APCW makes a face-to-face assessment of the individual, determining the level of unmet needs and developing a care plan of services needed to assist with activities including bathing, food preparation, housekeeping, medication setup, and other activities of daily living. If an individual requests a care plan change (an increased need in the amount of time or an additional task) an APCW will review and process the request, contacting the participant to ensure the services are appropriate for the individual's needs. Lastly, HCB providers will conduct and be reimbursed for annual reassessments for current participants. DSDS APCWs will review and process those reassessments, ensuring the care plans are appropriate and any necessary changes are documented in the CyberAccess system.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**Call Center - \$510,108 and 15.00 FTE (\$255,054 and 7.50 FTE GR; \$255,054 and 7.50 FTE Federal Funds)**

Based on the number of calls to the Central Registry Unit for new referrals in previous fiscal years, DSDS estimates that the Call Center will perform approximately 38,096 prescreens via telephone in FY 2013. If each prescreen averages 45 minutes, a total of 28,572 hours per year would be required to complete the prescreens, which equates to 13 FTE ( $45 \times 38,096 = 1,714,320$  minutes / 60 = 28,572 hours / 2,080 [number of work hours per year]). One Adult Protective and Community Services Supervisor would be required to manage the call center and one Senior Office Support Assistant-Keyboarding would be required to provide clerical support.

The standard ongoing cost per FTE of \$1,833.60 for staff who do not travel on a regular basis was used to calculate the total Expense and Equipment required for the Call Center of \$27,504 ( $\$1,833.60 \times 15 = \$27,504$ ).

**Assessment Unit - \$2,938,340 and 75.00 FTE (\$1,469,170 and 37.50 FTE GR; \$1,469,170 and 37.50 FTE Federal Funds)**

Based on workloads from FY 2011, DSDS estimates there will be 19,496 initial assessments, 40,396 care plan changes, and 60,000 reassessments to be completed in FY 2013. Each initial assessment averages three hours of staff time; a care plan change averages one-half hour; and an average of one hour is required to review and process reassessments. Based on the FY 2013 estimates, a total of 138,686 hours would be required to complete these tasks in a timely manner, equating to 65.00 FTE Adult Protective and Community Workers (APCW IIs) ( $[19,496 \times 3] + [40,396 \times .5] + [60,000 \times 1] = 138,686 / 2,080$ ). The APCWs will also provide technical assistance to providers and oversight of services provided to participants to ensure the care provided is adequate and appropriate.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

For every 12 FTE, DSDS requires one Adult Protective and Community Services Supervisor (APCS) and one Senior Office Support Assistant-Keyboarding (SOSA-K) to provide required supervision and clerical support. These 65 APCW IIs would require 5.00 FTE APCS to manage workloads and supervision, and 5.00 FTE SOSA-K to provide clerical support.

The ongoing cost per FTE of \$7,373.60 for staff who travel was used to calculate total Expense and Equipment for APCW IIs and APCSs ( $70 \times \$7,373.60 = \$516,152$ ); and \$1,833.60 for staff who do not travel on a regular basis was used to calculate the total for the SOSA-Ks ( $\$1,833.60 \times 5 = \$9,168$ ) for a total of \$525,320 in Expense and Equipment.

All of the personal services and expense and equipment will be funded at a 50 percent General Revenue/50 percent Federal Funds split.

**Reassessments - \$3,000,000 (\$1,500,000 General Revenue; \$1,500,000 Federal Funds)**

DSDS estimates 60,000 reassessments will be completed by HCB service providers in FY 2013. Providers will be reimbursed \$50 per reassessment. The reassessments will be funded at the administrative rate of 50 percent General Revenue/50 percent Federal.  $\$50 \times 60,000 = \$3,000,000$  (\$1,500,000 GR; \$1,500,000 Federal).

2. CORE DESCRIPTION									
<p>This core decision item funds temporary protective services for eligible adults who have been victims of abuse, neglect, or financial exploitation. The Division of Senior and Disability Services' Adult Protective Community Workers authorize and arrange for short-term services to allow individuals to remain in their homes and communities. These in-home services can include personal care, nurse visits, respite care, and home delivered nutrition services. Each individual is empowered to make his or her own choices regarding services and long-term care options.</p>									
<p>This core also includes the Non-Medicaid Eligible Consumer Directed Services Program (NME), transferred by Executive Order 05-10 (2005) and modified by SB 74 and 49 (2005), SB 1084 (2006), and SB 577 (2007). This program provides services for consumers who are not eligible for Medicaid services to access state funding and direct care to meet their personal care needs. Individuals must meet annual eligibility requirements regarding income and assets and need assistance with activities of daily living. State statute places a cap on this program. No new participants may be enrolled.</p>

### 1. What does this program do?

The Adult Protective and Community Services (APCS) Section has three primary roles:

- 1) Investigate allegations of abuse, neglect, and financial exploitation (A/N/E) of individuals over age 60 and those with disabilities who are age 18-59 and coordinate appropriate intervention services to allow those individuals to remain in their homes and communities and prevent future incidents.
- 2) Oversee program management to ensure timely and appropriate services are delivered to address each participant's unmet needs and allow them to remain in their homes and communities.
- 3) Perform quality assurance and high-cost care plan reviews to ensure care is delivered in compliance with state and federal rules and regulations and department participation agreements and to ensure efficient, effective, and appropriate use of Medicaid-funded services.

In addition, staff located in the central office of the Section for APCS interpret state and federal laws, rules, and regulations; ensure the Division of Senior and Disability Services (DSDS) is in compliance with the Medicaid State Plan and the various Medicaid Waivers administered by the divisions; set policies that apply to adult protective and HCB services; and provide training to HCB providers and DSDS field staff. The Special Investigations Unit assists in complex investigations of alleged abuse, neglect, or financial exploitation for senior and disabled adults between the ages of 18 and 59 and acts as a liaison between DSDS staff and local law enforcement.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Title XIX and Title XX of the Social Security Act; PL 89-73 Older Americans Act, updated in 2006 by PL 109-365; and Sections 208.152, 208.895, 208.900 to 208.930, 660.023, 660.050, 660.250 to 660.321, 565.180 to 565.188, and 570.145, RSMo.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, within this program lies responsibility for oversight of the Medicaid State Plan Personal Care and Adult Day Health Care Programs, the Aged and Disabled Waiver, and the Independent Living Waiver. State funds receive a 50 percent federal match when activities deal with home and community based care or the health and safety of Medicaid participants.

### 4. Is this a federally mandated program? If yes, please explain.

No, however states receiving match through federally funded programs have responsibilities as required through Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

## 2. CORE DESCRIPTION

This core funding reimburses Home and Community Based Service (HCB) providers and vendors for care provided to Medicaid participants who are eligible for long-term care benefits and choose to receive their care in the home or community as an alternative to entry into a long-term care facility. Medicaid funded HCB services include personal care, attendant care, nurse visits, adult day health care, homemaker, respite, and home delivered meals for eligible adults; and additional services including adaptive equipment, private duty nursing, health screenings, and subsequent treatment for identified health problems for children including specialized medical equipment and critical medical supplies for eligible participants.

The Division of Senior and Disability Services manages HCB benefits authorized under the Medicaid State Plan and administers the Aged and Disabled Waiver and the Independent Living Wavier for care provided to seniors and adults with disabilities who would otherwise be eligible to receive care in a skilled nursing facility. The Division of Community and Public Health administers the Healthy Children and Youth benefits authorized under the Medicaid State Plan, HCB benefits for children and adults authorized under the AIDS Waiver, and the Physical Disability Waiver which provides HCB benefits to individuals with serious and complex medical needs who would otherwise be eligible to receive care in an intermediate care facility.

The General Revenue transfer and appropriations from the In-Home Services Gross Receipts Tax Fund are related to SB 307 and HB 740 (2009) and SBs 1007 and 842 (2010). Those bills permit the State of Missouri to seek a federal reimbursement allowance, often referred to as a provider tax, for in-home service providers. To date, imposition of this tax has not been approved by the Centers for Medicare and Medicaid Services (CMS); however, the appropriations remain in the house bill should CMS reverse its decision.

<b>Medicaid Home and Community Based Services (HCB)</b>							
<b>Program is found in the following core budget(s):</b>							
	<b>Medicaid HCBS</b>						<b>TOTAL</b>
<b>GR</b>	202,848,238						202,848,238
<b>FEDERAL</b>	369,273,711						369,273,711

- 1. What does this program do?**

This program includes Home and Community Based (HCB) Services (in-home and consumer-directed services) for Medicaid participants under the Aged and Disabled, Independent Living, Medically Fragile Adult, and AIDS Waivers as well as state plan personal care and adult day health care for eligible individuals, and services for children under the Healthy Children and Youth (HCY) program. Services within this program are available to individuals who are eligible for Medicaid benefits, considering long-term care, need help to stay at home or in the community, and/or need assistance in accessing care or services necessary to maintain independence and dignity. Services are available to all Medicaid beneficiaries that need and choose personal care services as an alternative to facility placement and to seniors and adults with disabilities who are unable to independently access services or perform activities of daily living.
  
- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Title XIX and Title XX of the Social Security Act; PL 89-73 Older Americans Act, updated in 2006 by PL 109-365; and Sections 208.152, 208.900 to 208.930, 660.050, and 660.250 to 660.321, RSMo.
  
- 3. Are there federal matching requirements? If yes, please explain.**

Yes, HCB services provided under State Plan Personal Care and Adult Day Health Care, the Aged and Disabled Waiver, the Independent Living Waiver, the AIDS Waiver, the Medically Fragile Adult, and Healthy Children and Youth (HCY) are matched by General Revenue according to the standard Federal Medical Assistance Percentage (FMAP) rate for activities related to home and community based care for eligible participants.
  
- 4. Is this a federally mandated program? If yes, please explain.**

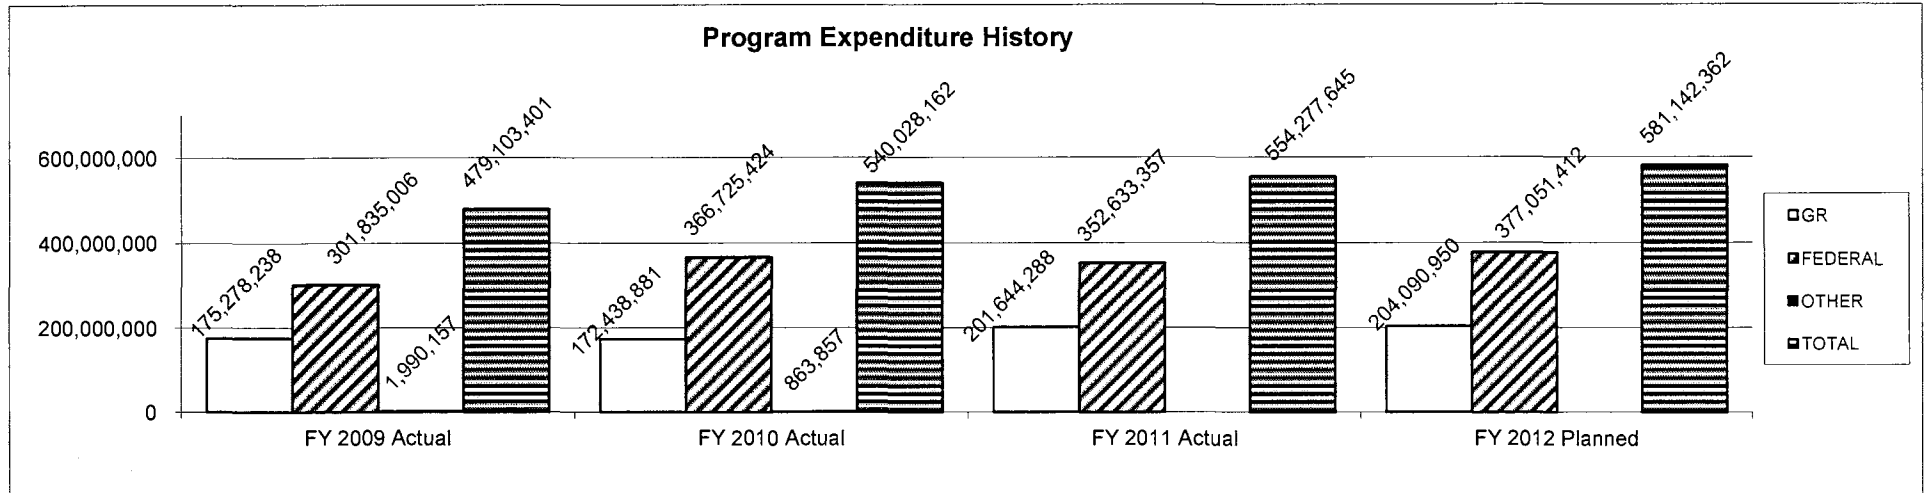

No. HCB services are optional under the Medicaid State Plan. Because Missouri has opted to offer these services, oversight of federal funding is required for use of Title XIX and Title XX of the Social Security Act funds. Oversight of Medicaid HCB Waiver services is required by the Centers for Medicare and Medicaid.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Each year the Centers for Medicare and Medicaid Services revise the federal percentage of participation in Medicaid funded programs. This Federal Medical Assistance Percentage (FMAP) is based on a three-year average of personal income data (2008-2010) compared to the national average. FMAP changes require an annual adjustment to the percentage of state funds needed for matching federal Medicaid funds. The actual FMAP rate for Missouri is decreasing from 63.45 percent (effective October 1, 2011) to 61.37 percent (effective October 1, 2012) for Federal Fiscal Year (FFY) 2013. The blended State Fiscal Year (SFY) FMAP rate (using one quarter of the FFY 2012 and three quarters of the FFY 2013 match rate) will decrease from 63.41 percent in SFY 2012 to 61.89 percent for SFY 2013. However, Missouri will apply for a two percent enhanced rate through the Balancing Incentive Program. Therefore, the SFY 2013 FMAP rate will be 63.89 percent.

Increased General Revenue, offset by a core reduction of federal authority, is needed to sustain funding for current participation in Medicaid-funded Home and Community Based Services.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The FFY begins October 1st, three months into the SFY. To account for the differences in state and federal fiscal years, a blended FMAP rate is used to determine the amount of General Revenue needed in the SFY program core. A blended FMAP rate is calculated by adding three months (July - September) of federal match based on the old FFY rate to nine months (October - June) of federal match based on the new FFY rate and dividing by 12 months. Missouri will apply for a two percent enhanced rate through the Balancing Incentive Program, so the rate (63.41 percent in SFY 2012) will change to 63.89 percent for SFY 2013, resulting in revised levels of state and federal funding needed to maintain current participation levels.

The SFY 2012 core funding for Title XIX Home and Community Based Services is \$204,090,950 General Revenue and \$377,051,412 Federal Funds, for a total of \$581,142,362. The adjusted SFY 2013 FMAP rate decreases the state match rate to 36.11 percent and increases the FMAP to 63.89 percent, resulting in the need for \$209,850,507 (\$581,142,362 x .3611) in General Revenue and \$371,291,855 (\$581,142,362 x .6389) in federal funds. Increased General Revenue of \$5,759,557 (from \$204,090,950 to \$209,850,507) and a corresponding core reduction in federal funds (from \$377,051,412 to \$371,291,855) is needed to maintain the current participation level in the Home and Community Based Services program. Additional General Revenue is needed in spite of the increasing FMAP because the SFY 2012 appropriations included potential increased federal funds that have not yet been realized.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Funding for FY 2013 is needed to continue the FY 2012 supplemental funding that pays for Home and Community Based (HCB) Services provided to Missouri Medicaid participants receiving long-term care in their homes and communities as an alternative to care in nursing facilities. HCB Services include Medicaid State Plan Personal Care, Independent Living Waiver, and the Aged and Disabled Waiver administered by the Division of Senior and Disability Services; and the AIDS Waiver, Medically Fragile Adult Waiver, and Healthy Children and Youth Program administered by the Division of Community and Public Health. Funding is requested to cover anticipated costs based on current participation levels. Additional costs are due to increased utilization and are not associated with expansion of the program or eligibility requirements. The federal authority for this program is the Social Security Act Sections 1894, 1905(a)(7), 1905(a)(24), 1915(c), and 1934; 42 CFR 440.170(f), 440.130, 440.180, 440.210, and 460. The state authority for this program is Sections 208.152, 208.168, and 660.661-660.687, RSMo.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The current appropriation for Medicaid Home and Community Based (HCB) Services is \$581,142,362 (all funds). Based on projected annual utilization using actual expenditure data since FY 2009, a \$29,939,056 shortfall is anticipated. The projected cost increase is attributed to increased caseload growth and utilization of services. Based on the FY 2013 FMAP rate of 63.89 percent, additional \$10,810,993 (\$29,939,056 x 0.3611) General Revenue and federal authority of \$19,128,063 (\$29,939,056 x 0.6389) is requested to maintain current participation. This FMAP rate assumes Missouri qualifies for a two percent enhanced rate for HCB Services through the federal Balancing Incentive Program. This cost projection does not account for any costs related to program management.

<b>2. CORE DESCRIPTION</b>																																																																																											
<p>This core decision item funds services to victims of Alzheimer's and other dementia-related diseases and their families or caregivers. According to preliminary data from the Centers for Disease Control, Alzheimer's disease was the sixth leading cause of death in the United States in 2009 and the fifth leading cause of death for individuals age 65 and over. Of the estimated 5.4 million cases of Alzheimer's disease nationwide, approximately 110,000 victims reside in Missouri. Although dementia generally affects individuals over age 65, it has also been known to strike a much younger population. This funding provides services to individuals with Alzheimer's Disease and their caregivers, including caregiver respite grants, peer-to-peer counseling for victims, and caregiver safety training programs such as those that prevent wandering.</p>

## PROGRAM DESCRIPTION

Health and Senior Services										
Older Americans Act Programs										
Program is found in the following core budget(s):										
	AAA Contracts	DSDS Program Operations								TOTAL
GR	10,447,813	143,286								10,591,099
FEDERAL	31,536,227	313,029								31,849,256
OTHER	100,000	0								100,000
TOTAL	42,084,040	456,315								42,540,355

### 1. What does this program do?

Services provided through the Older Americans Act Programs are administered by the ten Area Agencies on Aging (AAAs) and available to seniors statewide. Primary program funding is received from the federal government pursuant to the Older Americans Act (OAA). AAAs provide supportive services (including transportation, information and assistance, legal services, and in-home services), nutrition services, family caregiver support (including respite and counseling services), and ombudsman services. The Senior Community Service Employment Program (OAA Title V) is distributed via a competitive grant process to support senior employment and training. General Revenue funds are used as the required federal match for OAA distribution and as a supplement to increase service availability. Funding also includes distributions from the Elderly Home Delivered Meals Trust Fund and Social Services Block Grant.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 192, Sections 660.050, 660.057, and 660.250, RSMo. Federal Statutory or Regulatory Citation: Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act, updated in 2006 by PL 109-365.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, services funded through the Older Americans Act require matching funds. Title III administration and Title III-E family caregiver costs require a 25 percent match. Title III-B supportive program and Title III-C nutrition funding require 15 percent match of which five percent must be state match. Title V requires a ten percent match. No match is required for Title VII and the Nutrition Services Incentive Program (NSIP) funding. Medicaid funded home delivered meals must be matched utilizing the standard Federal Medical Assistance Percentage (FMAP) participation rate for Medicaid payments.

### 4. Is this a federally mandated program? If yes, please explain.

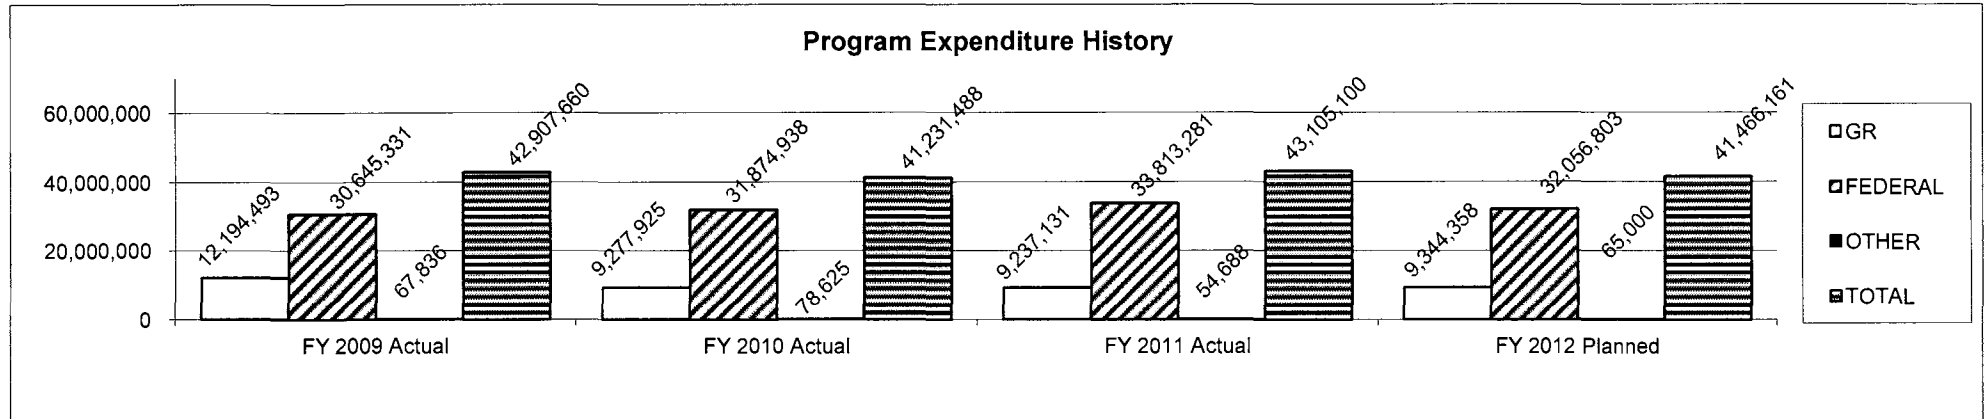

No, however states receiving Older American Act funding are mandated to have a long-term care ombudsman serving residents statewide. In addition, state oversight is mandated for states accepting OAA funds. Oversight of the Aged and Disabled Waiver (which includes home delivered meals) is required by the Centers for Medicare and Medicaid Services for states that are granted a Home and Community Based Waiver.

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802850	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Regulation & Licensure	<b>DIVISION:</b> Division of Regulation & Licensure

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2012, the Division of Regulation and Licensure (DRL) was granted 25 percent flexibility between personal services and expense and equipment appropriations for General Revenue, federal funds, and the Nursing Facility Quality of Care Fund. Also, 100 percent flexibility was granted between Medicaid and non-Medicaid appropriations. DRL requests that this level of flexibility be continued for FY 2013. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc.), 100 percent flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

#### DEPARTMENT REQUEST

DHSS requests 25 percent flexibility between PS and E&E for General Revenue, federal funds, and the Nursing Facility Quality of Care Fund; and 100 percent flexibility between Medicaid and non-Medicaid appropriations.

In FY 2011 \$634,700 was flexed from Medicaid PS and E&E and non-Medicaid E&E to non-Medicaid PS to cover payroll expenses.	In FY 2012, 25 percent flexibility was appropriated between PS and E&E appropriations for General Revenue, federal funds, and the Nursing Facility Quality of Care Fund. Also 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide high quality services to Missourians.

<b>2. CORE DESCRIPTION</b>									
<p>Core funding is requested for inclusion services to assist providers and families with special needs children. The Section for Child Care Regulation promotes inclusive child care services for families and children with special needs by providing funding for Inclusion Specialists in each regional office of Child Care Aware of Missouri (CCA), formerly the Missouri Child Care Resource &amp; Referral Network. The Inclusion Specialists provide child care referrals to families of children with special needs, collaborate with child care providers to create new child care slots for children with special needs, and provide on-site technical assistance when requested by either parents or providers. CCA also trains child care providers in an inclusion curriculum that teaches practical strategies for child care providers, as well as additional inclusion training sessions based on the surveyed needs of the providers.</p> <p>Child care is a workforce issue. The availability of quality child care affects the labor pool and workplace productivity, and is linked to increased school success, crime reduction, and a stronger economy. CCA supports an important industry comprised of thousands of small businesses in Missouri. Families of children with special needs are part of Missouri's workforce and can remain productive employees when quality child care is available.</p>

**1. What does this program do?**

The Section for Child Care Regulation (SCCR) is responsible for the inspection, licensure, and regulation of child care programs in Missouri. SCCR staff conduct semi-annual inspections in licensed child care programs and annual inspections in regulated programs to monitor compliance with child care rules. SCCR staff also coordinate annual fire safety inspections conducted by the State Fire Marshal's Office. SCCR staff provide consultation to help child care providers achieve and maintain compliance with rules and conduct complaint investigations. SCCR contracts with Child Care Aware of Missouri to provide inclusion services to assist providers and families with special needs children. Health consultation services for providers and families and sanitation inspections of providers are carried out by the Division of Community and Public Health in coordination with SCCR.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Sections 210.199 to 210.275, RSMo; Personal Responsibility and Work Opportunity Act of 1996 (Governs the Child Care Development Fund).

**3. Are there federal matching requirements? If yes, please explain.**

Yes, funding for this program is provided through the Maternal and Child Health (MCH) Block Grant, which is matched at the departmental level.

**4. Is this a federally mandated program? If yes, please explain.**

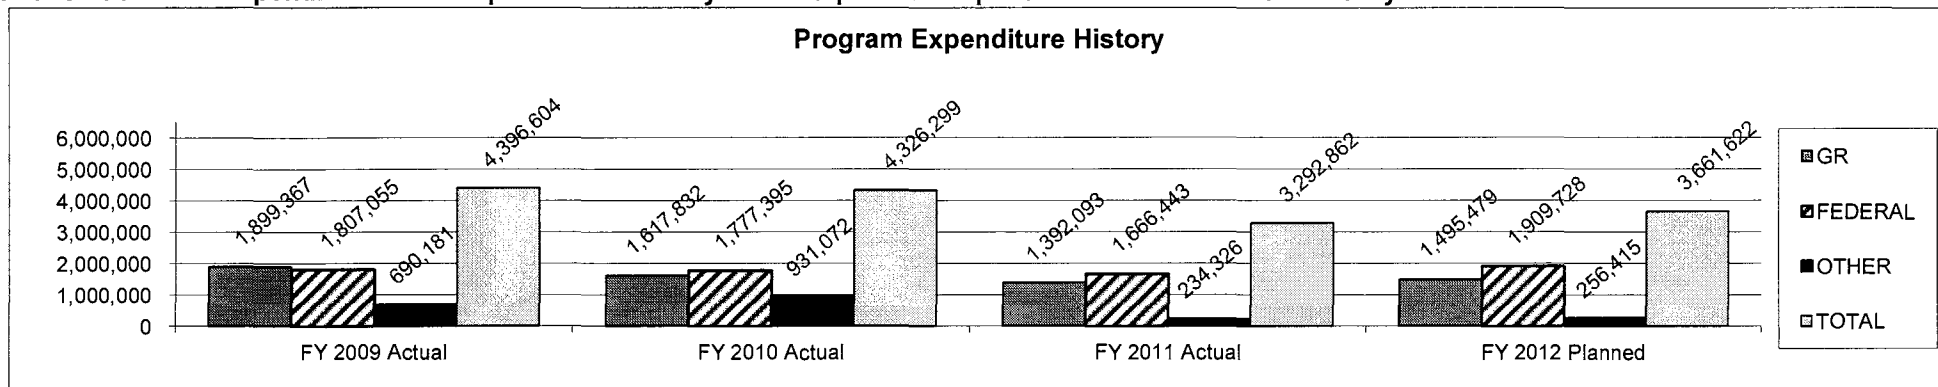

Yes, the SCCR receives federal Child Care Development Fund (CCDF) monies from the Department of Social Services through a memorandum of understanding in order to improve the quality and availability of safe and healthy child care. The Department of Social Services is the lead agency in Missouri for CCDF funding from the federal government. A minimum of four percent of the CCDF funds must be used to improve the quality of child care. The resource and referral agencies throughout the state also offer additional services to parents as a part of these funds.

#### 1. What does this program do?

The Missouri Health Facilities Review Committee and the Certificate of Need (CON) Program had its origin in Federal Public Law 93-641 (1974), which was later repealed by Public Law 99-660 (1986). The CON statute, Sections 197.300 to 197.366, RSMo, became effective September 1979. The statute is intended to address issues of community need, accessibility, cost containment, and other community health service factors.

The Committee's mission is to achieve the highest level of health for Missourians through cost containment and reasonable access. This is accomplished by:

- 1) Reviewing proposed health care services;
- 2) Assessing community need;
- 3) Promoting economic value; and
- 4) Preventing unnecessary duplication.
